EXPERIENCE

Sempra Infrastructure

Capital Project Solutions Intern

Houston, Texas
June 2024 – August 2024

- Reviewed hundreds of deliverables in business cases, cost analysis, financial models, and business development strategies for projects valued in excess of \$1B ensuring financial viability
- Analyzed strategies to assess market opportunities, competitive positioning, and risk factors for LNG and renewable energy projects contributing to go/no-go decisions for capital projects
- Guided four development teams through Capital Value Process to enhance quality of deliverables and ensure alignment with assurance review standards, facilitating informed funding decisions
- Facilitated 20+ workshops for capturing Best Practices and Learnings (BP&L), enabling teams to implement process improvements and apply learnings from project phases across organization
- Researched and developed comprehensive BP&L Coordinator Training Plan, creating tools to train six incoming coordinators and drive continuous improvement across projects
- Revamped project requirements by researching benchmarks and refining deliverable templates for all projects in early-stage development, including critical financial and strategic analysis
- Created two assurance plans for energy projects, ensuring thorough preparation for reviews by aligning stakeholder requirements and deliverable expectations with project timelines
- Leveraged the Capital Value Process to guide project development teams to present quality deliverables at assurance reviews and evaluate business opportunities
- Presented accomplishments and learnings conclusion of internship to 10 senior leaders

Champion Industrial Sales Co.

Information Technology Operations Manager

Houston, Texas
June 2021 – June 2023

- Managed daily the accounts payable, accounts receivable, and bank transactions leading to proper management and tracking of \$8 million of revenue
- Assisted in cash management system, budget creation and analysis representing cash flow for 12.5% of YOY revenue increase
- Collaborated with senior leadership in order to lead daily communications that established clear planning of tasks inducing greater confidence of roles and increased team communication
- Worked closely with the business owner to strategize and plan the future of the company including improving current methods and expanding into new opportunities

Energy Transfer

GIS Technician, Intrastate As-Builts

Houston, Texas
May 2019 – June 2021

- Created maps and edited pipelines using GIS Software, ArcMap, UPDM and ArcCatalog tools and technique resulting in a maintained and accurate database that other teams could rely on
- Interpreted thousands of lines of data and schematics to create digital visualizations of pipelines and meter stations in the real world making an accurate representation of company assets
- Researched documentation such as material lists, completion reports, hydro tests, work order authorization, etc. which lead to an update of source materials for future operational improvements

Tetra Tech, INC

GIS Analyst

Houston, Texas
July 2018 – May 2019

- Compiled geographic data from an average of 15 reliable sources including satellite imagery, aerial photographs, databases, and existing maps bearing thorough reports for project management
