## EDUCATION

---

**Texas A&M University, Mays Business School**  
*Master of Business Administration*

College Station, Texas  
May 2025

**Liberty University**  
*Bachelor of Science*

Lynchburg, Virginia  
January 2012

## EXPERIENCE

---

**Pioneer Natural Resources**

Midland, Texas

*Planner, Maintenance*

August 2018 – April 2023

- Organized planning and scheduling team of three to maintain \$250M of assets across area over 1M acres
- Established five shift schedules, 25 resources, lead times for over 1k unique operations, bills of material and standard routes in Oracle Enterprise Asset Management (EAM)
- Forecasted over 75k labor hours required for planned and unplanned events to help determine headcount for three cross functional departments

**Vista Outdoor**

Overland Park, Kansas

*Master Scheduler, Operations*

October 2017 – August 2018

- Established calendars, work centers, resources, and routes in Microsoft Dynamics AX and SAP By Design for four factories to enable constraint-based planning of resources
- Streamlined product lines and reduced inventory by looking at historical sales data and discontinuing products that had a history of under-performing
- Prioritized sales order production for 50 Brands across two factories to drive on time delivery

**General Electric**

Rockford, Illinois

*Operations Manager, Manufacturing*

October 2012 – October 2017

- Increased production 117% by working with a cross functional team to reduce waste and down time
- Led assembly team of 13 employees to build final and sub assembly products including armatures, motors, electronic controls, pneumatic valves, and linear actuators
- Reduced non-productive time by 30% and increased direct hours by cross training employees to allow support to other assembly lines
- Created a planner code system for 27K part numbers to increase material resource planning efficiency
- Scheduled the production of multi-level assemblies through a fabrication shop and assembly/test shop
- Coordinated with PQE/Engineers to help trouble shoot and resolve non-conformances on products
- Lead a team to redesign four engineering drawings to make them easier to assemble and service
- Reduced production cost \$250K annually and shortened lead time 50% by changing designs and bills of material

**US ARMY**

Various locations

*Team Lead*

March 2007 – March 2011

- Led a team of four emerging leaders on over 250 global operations to ensure safety and security of 20 personnel

## LEADERSHIP & INVOLVEMENT

---

**Phi Theta Kappa Honor Society**

Cypress, Texas

*Vice President*

January 2002 – December 2004

- Organized events to build awareness of non-profit organizations in our community
